We want to help but can't make a large donation right NOW!

We understand. So, let's work together. Let's take a large donation but break it up over 5 years. That way, with small, timed, consistent monthly payments you will be able to budget a donation to us without making a large, single sacrifice. You can set it up for automatic payments so that you won't even have to worry about it. We will give you an annual summary and at the end of the 5 years we can discuss a new donation. You will also know that your monthly payment will not increase without you consenting to it. We won't have

to come back to ask for any more money from you for 5 years. The installments will not begin until we open for business, but your commitment will show our lending bank that we have enough support in the community to make our mortgage payments and be a viable business. It is security for both us.
